

Proposal additional Class in Duo (Classic)

For the entry in the Duo System we propose to have a second category. Now we have one Class, where advanced athletes meet beginners. To give the beginners a chance to win a championship we propose to create a second category, so that we have Ju Jitsu Duo advanced and Ju Jitsu Duo Beginners. The athletes in the beginner category will get no points for the Ranking list. The beginner category will not be held at a World- or Continental Championship (ex. European Championship).

The important point here, is that the athlete worries about learning only 4 holds and their respective defence.

It turns the learning of the duo system friendlier for practitioners, teachers and coaches, encouraging its practice and development.

It is applicable to compete for a medal in national and regional tournaments.

Proposal

The JJIF should create a second category in the Duo System, so that we have 2 (Advanced and Beginners). It shall be established in U15, U18, U21 and Seniors!

The athletes show a single series (A) of 4 techniques. The competitors can choose 3 out of 4.

The beginner category shall have the same rules as the "normal" Duo System!
