**Proposal to the session 2019: Changes of the referee rules; Adding of 11 Referee Dressing and & Section 12 Referee Behaviour**

Dear JJIF board, representatives of the JJNOs,

**On behalf of the Deutscher Ju-Jutsu Verband e.V. I would like to propose the following changes of the referee rules: Adding of sections:**

**Section 11 Referee Dressing**

- Referees shall wear black trousers [colour code] and dark socks, mat shoes, white shirt, JJIF tie and dark navy (blue) jacket [colour code] with a JJIF badge attached to the left side.
- Depending on the temperature, Referees shall wear the same as above but without jacket.
- According to the event format organizers can change the dress code. (example Beach events)

**Section 12 Referee Behaviour**

- Referees must behave correctly towards all functionaries, athletes and the public.
- During Competitions referees must not express negative opinions (criticisms) regarding another Referee's conduct in public.
- The referee has to be an example of sportsmanship and the positive effect of sports

Reason: These requirements have been in previous version of the referee code. The German Federation believes that they're important to ensure a standard for referees. The second part is a clear commitment to our budo standards.

With best regards,

Dr. Claudia Behnke  
(Sportdirektorin im DJJV e.V.)
