Subject: Proposal - Change of 3.2.2 Number of participants

Dear delegates of the session 2019,

on behalf of the UAEJF I would like to propose the following changes of the organization and sporting code:

Remove the strikethrough parts and add the red marked part.

3.2.2 Maximum Number of athletes per JJNO

For the ADULT World and Continental Championships, each JJNO may enter two (2) contestants in each category, ~~with an overall limit of ten (10) men and ten (10) women in the individual disciplines and no overall limit in the disciplines Duo and Show.~~

~~For the Junior World Championships, each National Federation may enter two (2) athletes in each category.~~

For Grand Prix, World and Continental Cups each JJNO may enter ~~six (6)~~ four [4] contestants in each category.

~~The JJIF / JJCU board can grant a special host country quota, of maximum double the entries, to the organizing JJNO.~~

Scrutinizing this idea, it is a good technique of encouragement and inducement to increase number of participating athletes from the hosting countries in every international events. Overall limit deliver the National team in difficult decisions and sometimes create confusion. The host country quota will give more chances to the hosting country but not a guarantee of victories. As well as it will serve as excitement and motivation in each tournaments with the strong impact of local media. It is an extreme advantage for the hosting countries to present the outstanding performances of their athletes and especially in promoting Ju Jitsu sport in the country.

Best regards,

Fahad Al Shamsi

CEO of UAE JIU- JIUTSU FEDRATION
